Prozesswissen

- Management des Wissens aus schwach strukturierten Prozessen
- Größere Anzahl Prozessen mit geringerer Wiederholungsfrequenz
- Prozesswissen implizit und über mehrere Organisationsmitglieder verteilt
- In dieser Form Wiederverwendung von Prozesswissen kaum möglich
- Unzureichende Verbindung von Fakten- und Prozesswissen

The diagram illustrates the relationship between 'F. Wiss. Shared Encounters' (Factual Knowledge Shared Encounters) and 'W. Wiss. Shared Encounters' (Work Knowledge Shared Encounters). It features a horizontal bar with a color gradient from green to purple. The left side is labeled 'F. Wiss. Shared Encounters' and the right side is labeled 'W. Wiss. Shared Encounters'. Below this bar, a blue oval contains the text 'Wiederverwendbarkeit: > 100%' (Reusability: > 100%).
